PROJECTS

golf-bet (live site / repo) HTML/JavaScript/CSS, Vue , Supabase/Postgresql, Tailwind-CSS, Firebase Hosting

- Multiple views: player/profile, create match, scorecard.

- Accounts: create new account, sign in to existing account.

- Create a match and join match from other account(s).

- Interactive scorecard: player 1 inputs scores and other players see updated scores via real-time database.

- Winner calculated and appropriate settlements for winners and losers provided.

janssendotcom (live site/ repo) HTML/JavaScript/CSS, Angular, Firebase

- Personal static website.

- Basic navigation.

- Raw SCSS with no readymade components or styling with original design.

WORK EXPERIENCE

Driver GrubHub/UberEats/Doordash   2018 - Present

- 4.9+/5 rating across platforms

- To make a decent income and maintain a high customer rating requires time-management, organization, and consistent self-directed hard work

Profession Musician / Teacher Self-employed   2001 - 2018

- Seek clients and maintain relationships with them.

- Schedule gigs and lessons, billing.

- Execute performances based on needs of clients and venues.

- Understand nuanced needs of clients and meet those needs. Manage complex and fraught relationships between myself, students, and their parents who all have different desires and expectations. Create individualized curricula according to students' abilities and interests.

- Consistent study and practice to extend my abilities and opportunities both as a performer and as a teacher.
